

PHILLIP JEFFRIES LTD. HANGING INSTRUCTIONS

SEASONS WALLCOVERING

STOP: DO NOT CUT OR INSTALL UNTIL YOU HAVE READ THESE INSTRUCTIONS!

Thank you for choosing this fine handcrafted wallcovering. For the best results, we believe that a professional wallcovering installer should hang these wallcoverings.

DESCRIPTION:

Hand pressed leaves are harvested from silk plants, dried and randomly hand placed to emulate the look of falling leaves. The **SEASONS** Leaf Wallcoverings are coordinated with Extra Fine Arrowroot and Manila Help grasses that are also laminated to quality backing papers.

PREPARATION:

Before you cut and hang, please be sure you have:

1. The correct wallcovering item and the correct amount of wallcovering to finish the job.
2. Inspect the wallcovering carefully to ensure it is free of defects:
If no defect is evident before installation, the material should be inspected after three (3) strips are installed. If any defect is evident at this time (or at any point in the installation) no additional material should be hung until Phillip Jeffries Ltd. is notified. **NO CLAIMS WILL BE ALLOWED FOR MORE THAN (3) STRIPS ON THE WALL.** All claims must be made within 60 days of the invoice date. No labor claims will be allowed at any time.

**IF YOU HAVE ANY QUESTIONS, PLEASE STOP AND CONTACT
PHILLIP JEFFRIES LTD. BEFORE PROCEEDING**

WALL PREPARATION:

1. The walls to be covered must be properly prepared to insure that the wallcovering will adhere to the wall surface. Even the strongest adhesive can only work when the wall surface is clean and properly prepared.
2. Please be sure to cover old latex paint and new sheetrock or very absorbent walls with a good quality primer that is **SPECIFICALLY MADE FOR WALLCOVERING.** The exact primer must be determined by the installer. However when covering flaky or water based paint, a heavy duty wallcovering primer may provide the best results.
3. Allow the primer to dry thoroughly before hanging.

HANGING INSTRUCTIONS

SEASONS WALLCOVERING

STOP: DO NOT CUT OR INSTALL UNTIL YOU HAVE READ THESE INSTRUCTIONS!

INSTALLATION

ADHESIVE

1. We recommend a clear, non-staining, pre-mixed vinyl adhesive.
2. Apply the paste to the back of the paper, which will become flexible and easy to hang. Allow the paste to become tacky prior to hanging (exact time will vary based on temperature, humidity, etc.)
3. Do not add excessive water to the paste as it may cause the backing paper to pull away from the front.

TRIMMING

1. We recommend that you create your own precision trimmed edge by trimming the wallcovering on your work table.
2. Trim edges with a VERY sharp razor blade. Change your blades often.

MATCHING

1. SEASONS Wallcoverings are not meant to match. The leaves are applied by hand on a random basis.

TIPS

1. **DO NOT USE A SEAM ROLLER AS IT MAY CRUSH THE LEAVES!** We recommend a soft brush or cloth when hanging, so that you do not damage the face of the wallcovering.
2. Consider using a light painters tape to cover the edges of previously installed strips, so that the paste coming out from the seams will not settle on the installed strips.
3. **DO NOT** allow paste or excessive water to stain the front of the wallcovering. Both paste and excessive water will change the color on the face of the paper.
4. Paste, trim and hang one strip at a time.
5. Subtle shading differences between strips tend to soften over time as the wallcovering begins to oxidize.
6. SEASONS is hand crafted wallcovering. In some cases, small pieces of the leaves and stems may loosen from backing. In these instances, we suggest trimming these leaves and stems with sharp scissors.
